PROFESSIONAL SUMMARY

AI Content Creator and Generative AI Video Creator focused on AI-assisted video production, video editing, content creation, animation, prompt engineering, and short-form social media content. Experienced in developing end-to-end creative workflows covering ideation, scripting, AI-generated visuals, video making, editing, thumbnails, voice and sound design, and social media publishing. Skilled in Generative AI, Adobe Premiere Pro, Adobe Photoshop, prompt engineering, visual storytelling, and mobile-first content creation.

CORE SKILLS

Video Editing & Production: Video Editing, Video Production, Video Making, Content Creation, Short-Form Video, Visual Storytelling, Video Post-Production
Generative AI: Generative AI, AI Tools, Prompt Engineering, AI-Assisted Video Production, AI-Generated Visuals, AI Content Creation, Creative Automation
Adobe Creative Tools: Adobe Premiere Pro, Adobe Photoshop, Adobe Illustrator
AI & Creative Tools: RunwayML, MidJourney, Blender
Content & Social Media: YouTube Shorts, Social Media Content, Social Media Marketing, Content Strategy, Content Calendar, Audience Engagement, Mobile-First Content

SELECTED PROJECTS

ToonTadka TV – AI-Assisted Comedy & Animation YouTube Project 2026–Present

- Developed an AI-assisted comedy and animation content pipeline for Hindi/Hinglish YouTube Shorts, covering ideation, scripting, character design, AI-generated visuals, video making, voice, sound effects, thumbnails, and final video editing.
- Applied Generative AI and prompt engineering to create original recurring characters, environments, scenes, and short-form visual storytelling for family-friendly Indian comedy content.
- Planned and organized content using topic research, content calendars, repeatable production workflows, and social-media-first formats optimized for mobile viewing.
- Created video concepts around everyday Indian family and local-life situations using strong hooks, visual comedy, fast pacing, and clear calls to action.

AI Content Creation & Automation Portfolio 2026–Present

- Built practical AI-powered workflows for content creation, prompt engineering, creative ideation, automation, and digital productivity.
- Used AI tools to develop scripts, visual concepts, thumbnails, social media assets, and production-ready creative prompts.
- Combined no-code/low-code automation and vibe-coding workflows to streamline repetitive creative and content production tasks.

Cinematic Hindi/Hinglish Trading Music Video 2026

- Created a 30-second vertical 9:16 cinematic music-video concept using AI-assisted visual storytelling around trading discipline, patience, risk planning, and learning.
- Designed scene concepts, visual prompts, on-screen messaging, pacing, and social-first presentation for short-form video consumption.

EXPERIENCE

AI Content Creator / Independent Creator 2026–Present

- Create AI-assisted video and social media content from concept to final output, including scripting, prompt engineering, visual development, video editing, thumbnails, and publishing assets.
- Develop repeatable short-form content production workflows using Generative AI and AI Tools.
- Research content opportunities and convert ideas into platform-specific video concepts, scripts, visual prompts, and Content Calendar entries.
- Focus on audience retention, strong hooks, visual storytelling, mobile-first composition, and consistent creative branding.

EDUCATION

B.Tech in Computer Science and Engineering (AI) 1st Semester
Scope Global Skill University (SGSU), Bhopal, Madhya Pradesh
Expected Graduation: [YEAR]

CERTIFICATIONS & LEARNING

- Generative AI and AI-powered Content Creation – [Certificate / Platform, if applicable]
- Video Editing / Adobe Premiere Pro – [Certificate / Platform, if applicable]
- Prompt Engineering / AI Tools – [Certificate / Platform, if applicable]
